

Health as a Bridge to Peace

Health as a Bridge for Peace strives to encourage cooperation by getting people to work towards a common goal. The club uses health to foster peaceful cooperation both at the campus and international level through various events, shared projects and networking. Using the principles of the Canada International Scientific Exchange Program www.cisepo.ca and Global Youth Voices www.globalyouthvoices.org, the club hopes to build positive relations on campus and internationally.

If you would like to become an active member of HBP or receive information on upcoming events, please contact hbpclub@gmail.com. The time has come for everyone to promote diversity and deal with sensitive issues respectfully. Take a stance and make a difference.
