

Community Health and Social Justice Walk

"Walk the talk" with Cathy Crowe

To learn how to arrange a group walk:

cathyacrowe@gmail.com

"I would like to say that the walk was truly a humbling and eye-opening experience. It took concepts of justice and advocacy and brought them to life which to me, is invaluable. Cathy's knowledge, experience and practical advice helped me feel empowered to take action and serve my community as a future nurse." **Reena**, a 4th year nursing student

"The walking tour with Cathy Crowe was very inspirational. It was extremely valuable to learn first hand about the issues affecting people who are homeless from someone who is so knowledgeable. In the classroom we learn so much about the social determinants of health and advocacy, for me the walking tour reaffirms that nursing is a clear path to promoting social justice." **Sarah**, a 4th year nursing student
