

About the job

NOTE: THIS IS A VOLUNTEER UNPAID ROLE TO ASSIST WITH RESEARCH

Dr Pete Wegier, Research Chair in Optimizing Care Through Technology at Humber River Hospital is looking for a fall research intern to assist with research data collection, scheduling and conducting interviews and analyzing data.

The ideal candidate would be:

1. An undergraduate or graduate student within a health science, psychology, public health (or similar) program.
2. Passionate about research and data analysis particularly on improving the delivery of healthcare in Canada.
3. Experience with any of the following would be an asset: literature reviews, recruitment of participants for studies, basic quantitative or qualitative methods.
4. Bilingual in French would be an asset.

This position will provide students with the chance to gain experience in various aspects of research, and build their research, leadership, networking and organization skills.

For any inquiries/questions, please feel free to e-mail, Dr Pete Wegier, pwegier@hrh.ca.

All applicants can directly apply with a resume/CV with attention to Ida Grisoni, e-mailed to studentplacement@hrh.ca and e-mail subject line: **"FALL 2021 RESEARCH APPLICATION"**.
