

CALL FOR PAPERS: Health Equity

Special Issue on Asian American, Native Hawaiian, and Pacific Islander Health

Special Issue Guest Editors

Zhuo (Adam) Chen, PhD, Associate Professor, University of Georgia

Grace X. Ma, PhD, Director and Professor, Center for Asian Health, Temple University

Health Equity is the leading peer-reviewed open access journal that meets the urgent need for authoritative information about health disparities and health equity among underserved and vulnerable populations with the goal of providing optimal outcomes and, ultimately health equity for all. With coverage ranging from translational research to prevention, diagnosis, treatment, and management of disease and illness, the Journal serves as a primary resource for organizations and individuals who serve these populations at the community, state, regional, tribal, and national levels.

As the COVID-19 continues to wreak havoc across the United States, Asian Americans, Native Hawaiians, and Pacific Islanders (AANHPIs) have suffered from both the impact of the pandemic and hate crimes that ensued.¹ AANHPIs have also experienced disparities in the economic consequences of the pandemic and the coping for the physical and mental health repercussions.²⁻⁴ The Biden-Harris Administration has called to advance equity and inclusion among the AANHPI communities to “improve safety, access to justice, and violence prevention for AA and NHPI communities, including by preventing, reporting, addressing, and better tracking acts of hate and bias.”⁵ Health Equity intends to publish a special issue on health disparities among AANHPIs or its subgroups since the pandemic. A prospective submission may address health disparities AANHPIs experienced in any disease or condition. Review articles, original research articles, and perspectives are welcome.

Please contact Dr. Zhuo Chen at zchen1@uga.edu if you have any questions regarding the special issue. Deadline for submission is February 28, 2022. Manuscripts should be submitted through the journal site <https://mc.manuscriptcentral.com/heq>. Please choose “Special Issue: Asian American, Native Hawaiian, and Pacific Islander Health” as article type.

Health Equity Health Equity is an Open Access journal, with an Article Processing Charge (APC) of \$950.00 USD. Mary Ann Liebert, Inc. will donate 5% of your APC fee to the charity of your choice from the following five charities: UNICEF, National Medical Association, The Humane Society International, Nature Conservancy, and Doctors without Borders.

All articles in the Journal are rapidly reviewed and published online within 4 weeks of acceptance, and publish under the Creative Commons Attribution 4.0 (CC BY) license to ensure broad dissemination and participation.

Audience of the Journal include physicians, nurses, and other healthcare providers; policy makers at the community, state, regional, tribal, and national levels; psychologists and social workers; educators; and researchers; among others.

Benefits of publishing in Health Equity:

- High visibility, immediate and unrestricted online access to published articles
- Rigorous and rapid peer review
- Easy compliance with open access mandates
- Authors retain copyright
- Highly indexed – citation tracking and inclusion in bibliographic databases
- Targeted email marketing

Health Equity is published in collaboration with the Institute for Professional Education.
