INFORMATION SESSIONS ABOUT OUR MA PROGRAM

Our interdisciplinary and research intensive MA in Development Studies is a uniquely focused, but flexible graduate program. Come pursue a wide range of research interests as they relate to the field of development in both the Global South and North, including gender, education, health, urbanization, sports, forced migration, migrant settlement, climate crisis, indigeneity, extractive industries, precariousness, etc. The MA is structured as a five-term program combining coursework, fieldwork and work placement.
