ENROLLMENT

This course examines a number of issues in Canadian human resources management including: human resources planning, recruitment, selection, performance appraisal, industrial relations, and training and development.

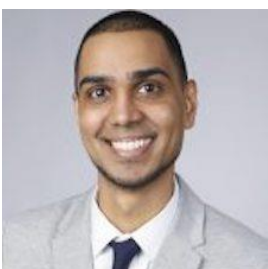

**Meet the instructors:**

---

Souha R. Ezzedeen holds a PhD in Human Resource Management and Organizational Behaviour and is a tenured associate professor of human resource management. Her research interests focus on topics at the intersection of careers, work-life balance, gender, and companion animals.

---

---

Shah Ali has been working in the HR field for over 15 years, in multiple roles across a variety of industries. His HR career started off working within the recruitment industry that specialized in recruiting senior-level medical doctors and nurses across North America. He then moved onto to the post-secondary education sector where he spent years as a Manager for York University and other leadership roles.
