Submission Deadline : April 1, 2024

"Reclaiming Our Lost Practices & Belief Systems"

The theme for the 2024 conference will focus on exploring our lost heritage: traditional healing practices, spirituality, ancestral wisdom, beauty of community healing, connection with nature, somatic healing and rest.

We are seeking poster, workshop and CE presentation proposals, which focus on these themes and that are informed by research, theory, and practice in South Asian mental health. Workshop presentations will be held in person and virtually while all poster presentations will be in person.

Proposals can be submitted by any individuals in the mental health or related fields (high school students, undergraduate students, graduate students, & professionals) or community members interested in mental health and healing. Anyone interested in South Asian mental health or serving the South Asian community are encouraged to submit a proposal.

Please note that the poster proposals will be for the in-person conference only. Workshop and CE presentations proposal can be submitted for either the in-person conference day or the virtual conference day.
